

## WHAT IS HISTORY?

1.  Let us calculate  $2+2$ .
2. This is the symbol for the set of all real number:  $\mathbb{R}$ .
3. This is the symbol for the set of integers:  $\mathbb{Z}$ .
4. This is the symbol for the set of all rational number  $\mathbb{Q}$
5. What is the need to learn history?
6. Are there one history or several histories?
7. Who has the power to write history?

we can also use this instead of margin. [top=1in,botton=1in,right=0.5in,left=0.5in]

You can make something comment by using percent symbol. But this would.

micros

1. Let's examination equation  $y = \frac{x}{3x^2 + x + 1}$ .

inserting graphics

1. Let's put the image here.

Figure 1: This is me
